DOCUMENT RESUME

ED 171 291 **IR 007 306**

TITLE	The Lighter-Than-Air Society Collection.
INSTITUTION	Akron - Summit County Public Library, Ohio.
PUB DATE	Oct 78
NOTE	41p.
EDRS PRICE	MF01/PC02 Plus Postage.
DESCRIPTORS	*Library Collections; Public Libraries; *Special Libraries; *Transportation
IDENTIFIERS	*Lighter Than Air Society

ABSTRACT

This bibliography of the holdings of the Lighter-Than-Air Society includes books, serials, manuscripts, and photographs acquired by gift and purchase. Information on Lighter-Than-Air craft is contained in technical treatises, scholarly histories, biographies, popular narratives and tales of adventure in English, French, German, Italian, Spanish, Portuguese, Polish, Dutch, and Russian. Although the materials themselves may not be loaned except by written permission of the society, photo reproduction on a limited basis is available. (JVP)

INTRODUCTION

The Lighter-Than-Air Society (formerly the Wingfoot-Lighter-Than-Air Society) has developed a unique collection of books, serials, manuscripts, and photographs concerning balloons and airships to help further knowledge pertaining to the history, science, and art of buoyant flight. The Collection has been acquired in part through gifts to the 1200 member Society and in part through purchases paid from the Society treasury. Society members have also collected historical objects such as airship girders, balloon and airship relics, models and other artifacts and are working for the day when a museum display area will be available to them. Presently books in the Collection are housed in the Science and Technology Division of the Akron-Summit County Public Library while archival materials such as manuscripts and photographs are housed in the Archival Services Division of the University of Akron's Bierce Library.

The book collection includes the first treatise on ballooning ever written, Description des Expériences de la Machine Aérostatique de MM. Montgolfier by Faujas de Saint-Fond published in 1783. Other materials in the book and archival collections portray the history of balloons and airships and bring the science up to date. Information on Zeppelins and blimps, rigid and nonrigid airships, manned and unmanned balloons (captive and free) are presented in technical treatises, scholarly histories, biographies, popular narratives, and tales of adventure in the air. Languages represented in the collection include, besides English: French, German, Italian, Spanish, Portugese, Polish, Dutch and Russian.

This booklist is the first comprehensive list of books included in the Lighter-Than-Air Collection. Books are listed in alphabetical order by author or other main entry. Standard bibliographical information - author, title, place of publication, publisher, and date - is given for each entry. The Akron-Summit County Public Library Dewey call number is also included to provide complete access to the Collection. The Collection is available for use in the Science and Technology Division during the Library's normal hours -- Monday through Thursday 9 a.m. to 9 p.m., Friday 9 a.m. to 6 p.m. and Saturday 9 a.m. to 5 p.m. Books in the Collection do not circulate and are not available through interlibrary loan; however, reference service is provided.

The archival Collection consists of a wide range of items on the history of airships and balloons including photographs, blueprints, letters, reports, manuals, and clippings. A comprehensive listing of these materials, which occupy approximately seventy cubic feet, has not yet been completed. Also available are the Society's serials, a list of which is included in this booklist. These materials are available for use in Archival Services during its normal hours -- Monday through Friday, 8 a.m. to 5 p.m. Archival materials do not circulate and must be used in Archival Service quarters.

Because new materials are added to the Lighter-Than-Air Collection each year, this list will be updated with supplements issued biennially.
